

# S-180 PUMPER

What you want. When you need it.

We've cut production time in half by building on our road-proven base models with the most requested specifications. From there, we offer multiple configurations and features, then quickly add on and customize to fit your needs. So you get all the quality and reliability you expect from Spartan, without compromising strength, safety, storage, comfort or your schedule.

## ROAD READY IN HALF THE TIME.

### More Maneuverable

- Cramp angles of up to 53° make it easy to navigate tight or winding streets

### Maximized Space Usage

- Full depth and split depth compartments with multi-purpose slide-out trays offer increased storage and easier access to tools

### Industry-Best Safety

- Features Spartan's Advanced Protection System plus ergonomic controls and easy access to hoses and equipment

### Lowest Cost of Ownership

- Features non-proprietary pump components and standard parts, making reordering easy and efficient

### At a Glance

- Custom Spartan Chassis
- Side or top-mount configurations
- 750 and 1,000 US gallon tank capacity
- Available in nine (9) custom configurations
- Full height compartmentation
- Maximized compartment space
- Hale and Waterous pumps

## We're all measured by our response times.

Your job is to answer every call with skill, efficiency and speed. You need your crew and equipment to always be ready for every emergency; there's no time to wait. That's why Spartan has revolutionized manufacturing response times with the S-180 line of pumpers.
